a prayer for PROTECTION

I extend my heart's deepest gratitude to you for the gift of service and healing together. It is in your presence and dedication that we find the true essence of our collective mission.

This protection prayer can be part of your daily practice. You can say this prayer, for example, once in the morning and once at night.

As we move forward, remember that we are all a beacon of light and love, shining a path of hope and healing for the world. Let our unity be a testament to the power Spirit.

Thank you ♥

a prayer for PROTECTION

Please, I call upon the Light, I ask you to help me to release anything and everything that is of a detrimental influence in my life.

To let go and let God in every area of my life through clearing away all detrimental influences, detrimental forces and detrimental entities of any kind that are attempting to hold me back.

I ask you please to help me to see what I cannot see and clear away any obstacles, obscurations and negative energies that are around me or within me now and forever.

a prayer for PROTECTION

I know that as I do this work to clear away these energies and I set this divine protection, I become in closer alignment with my true divine self and by my greater goodness I am closer to the all-powerful God.

With the power of the Universal forces of light, I release all agreements and all vows with any detrimental influence I may have made over this lifetime or another and I clear away all negative energies from my field now and forever.

Please protect me, I say yes to this protection now! I let go and Let God NOW!

With these words, I say, and so it is!

Thank-you!
